SEPTA Media

Client: Van Oult Electric

Foreman: George Hislop / Project manager: Lou Bencardino

This project involves upgrading numerous railroad crossings in the Media area with new lights and crossbucks. We'll be doing excavation work for the new electric.

Westchester University School of Music

Client: Bedwell Construction

Foreman: Joe Ianuzzi / Project manager: Steve Borusiewicz

This is a complete sitework project with all utilities through final paving and curbs.

Camden Technology Center

Client: Skanska

Foreman: Joe DiGirolamo / Project manager: Steve Borusiewicz

This complete sitework job includes storm, sanitary, and water through curbs and paving with decorative streetscapes, plus screening and replacing approximately 7500 cubic yards.

Holy Family College

Client: T.N. Ward

Foreman: Lou Biskup / Project manager: Steve Borusiewicz

This job involves complete sitework, including (2) underground detention basins, storm, sanitary and water with a 10,000-yard basement cut, plus all city and water tie-ins to street, with curbs and paving.

Old Mill

Client: Orrin Associates

Foreman: Joe Ianuzzi / Project manager: Dave Fink

This Upper Darby job involves regrading and overlaying of all blacktop areas.

Wachovia Bank

Client: P. Agnes

Foreman: TBA / Project manager: Dave Fink

For Wachovia we'll be doing all utilities through curbs and paving.

Post Office

Client: Burns Mechanical

Foreman: TBA / Project manager: Lou Bencardino

This is an excavation job for two 30,000-gallon tanks.

Merck Building 38 Lockers

Client: Radomski

Foreman: Joe Hathaway / Project manager: Steve Borusiewicz

For this Merck job we'll be installing a sanitary line underneath the hallway of an existing building and tying it into the street.

Frankford Parking Garage

Client: Lima Company

Foreman: TBA / Project manager: Lou Bencardino

This job involves excavation of storm and sanitary.

Peddie School

DONE AND NEARING COMPLETION

100%

Drexel University **Dave Fink** and **Joe Ianuzzi** brought the job in on-time and under budget. Drexel is very pleased with the way the project went.

ChesPenn Health Center **Mike Pape** did all the final finish work on this project.

Lincoln University Phase II **George Hislop** did a nice job with the restoration project there, completing all new curbs and sidewalks and installing all final paving with the help of **Silvi Ianuzzi** and **Ron Krajewski, Sr.**

95%

Montgomery County Geriatrics **Jeff Whitesell** finished all curbs, sidewalks and final grading.

90%

Lutheran Seminary **Lou Biskup** has finalized all underground utilities.

Merck 75B, Merck 10, Merck 60 **Joe Hathaway** is in the process of finalizing these projects and has his two operators, **Mickey Staffieri** and **Mark McKinley**, to help juggle these jobs on a tough site.

St. Mary's Hospital **Jeff Whitesell** has done a nice job at the St. Mary's site, moving 3000 yards of dirt and installing a 15-foot AllenBlock retaining wall.

80%

The Enclave **John Johnson** was successful at installing all storm, sanitary and water.

50%

Monument Village **Fred Lloyd** has finalized all PECO trenchwork.

Peddie School **Joe DiGirolamo** has successfully excavated 8500 yards for a basement in a very tight area and we're now installing underdrain and backfilling walls.

40%

Haverford College **John Johnson** is doing a good job coordinating a huge utility relocation project and also 10,000 yards of excavation for a basement, which includes relocation of gas lines to accommodate all work.

20%

Underwood Hospital **Ron Krajewski** is in the process of installing all utilities under difficult circumstances, dealing with a very congested area while accommodating the hospital's needs.

10%

Packer Avenue Marine Terminal **Chuck Woelk** is in the process of getting a large electrical excavation project started.

HOME DIRT

We send our sincere condolences to George Hislop whose father recently passed away. On behalf of the company, we wish George and his family well.

People

Shop guys Vince Stout and Rob Gill are doing a nice job of keeping up in a very fast-paced environment. By keeping our equipment serviced, we've seen minimal equipment failure, which equals more efficiency and progress on each job.

WELCOME NEW EMPLOYEES!

This summer we're pleased to bring on-board **Tom Donnelly, Tom Haubrich, Jeff Hoover, David Ivins, Barry Jones, Don McCaughey, Frank Peatross, Ben Taylor** and **Leo Yakamovitch.**

Processes

Safety tip: We're going to have a busy summer and fall. Remember to keep dirt away from trenches to prevent cave-ins.

Progress

New equipment: We're proud to announce the acquisition of a CAT 330CL excavator and a CAT 315CL excavator.

Paving division update: In the last issue we introduced our new paving division. We're pleased to announce that the paving division is starting to take off and run more efficiently. Hats off to the main crew: Silvi Ianuzzi, Ron Krajewski, Sr., Rich Miehle, John Jennings, and Steve Pape.

OVERHEARD

What our clients are saying about us

"Competitive pricing, quality workmanship, great team player. In this business people often don't show up on time, and don't get the work done when they're supposed to. Bencardino did the work and did it on time, and they didn't have their hand out for extras. When additional work came up, they just kept the project rolling."

— Andre Robinson, Project Manager

DIRT ON THE WEB

You can now view back issues of Latest Dirt online via the Bencardino website. We've also posted "The Bencardino Story" and the 2003 Employee Awards listing. Look for more news and updates to come in the "News" column on the main page.

And if you happen to pick up a copy of the Spring 2004 issue of Construction Today, there's an article called "How a website can build your construction business." Lou Bencardino is quoted in the article and Bencardino.com gets a mention.
