SUMMER 2007

## PROFILE Randy Fluck, Foreman

### What's your favorite movie of all time?

The Goonies!

### That says a lot about you, Randy.

(laughs) I guess it does.

### Any favorite sports and teams?

The Eagles, of course. I hope (like every year) they do well. And the Flyers. That's about it.

### Do you do much cooking?

We just bought a new house, my girlfriend and I, and we have a new baby and

everything so I've been doing a lot of cooking lately. Our little girl, Annabella Marie, was born May 15th.

### How's it feel to be a dad? What have been the most memorable moments for you?

It feels great. And I guess holding her for the first time, and watching the birth.

### Do you have any hobbies?

Dirt bike riding and car racing – gotta watch out for them telephone poles! I go local dirt biking wherever there's woods. I also race my '72 Nova. It's not street legal yet, just for drag race purposes.

### What's your favorite holiday?

Christmas, just everybody being happy.

### It's getting hot out there. Do you have any plans for the summer?

Just ride my motorcycle. I've got a Suzuki 1300 DSXR. I go everywhere, any highways, anywhere I can go real fast. I go down the shore sometimes to Wildwood. I like the atmosphere, the boardwalk, the rides.

# HOME DIRT

## People

Say hello to the new guys! Welcome operators Tom Smith and Mike Maul, and new truck drivers Bill Kohler and Mark Fendell.

*John Johnson, Marc McKinley, Mike Pape, and Bob McGrath were each awarded the Bencardino watch for ten years of service*

## Processes

We're in the summer months so please keep aware of the heat and drink plenty of water. We're going to be busy, in deep trenches, so be sure we're using our shoring and looking out for one another. If there is something you need, or see we need, use your radio or pick up the phone so we can get it to you.

## Progress

We bought the GPS grading system and have installed it on our D8 our D6N and D5G. Ron Krajewski and Marc McKinley are doing a nice job implementing the new system. We've also bought two new dump trailers for our demolition division and have also just bought a new Bomag 84-inch smooth drum roller.

# birthdays

Happy Birthday to these employees!

Don McCaughey, Jr.	July 5
Justin Davis	July 9
Randy Fluck	July 10

SUMMER 2007

New Demo Trailer

Fish Ladder

# overheard

what our clients are saying about us.

*"Bencardino has been doing the critical path work for us for the last two months...on a job site (Fish Ladder) that's very demanding with a lot of unknowns. I chose to work with them because I knew I was getting a company that could do the work, handle the change, do it safely and get it done when we needed to get it done. They've got all the right equipment when you need it and they're very responsive."*
